## **DETAILED ACTION**

### ***Election/Restrictions***

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-14, drawn to polynucleotides, the encoded polypeptide, and methods of making and using the polynucleotides.

Group II, claim(s) 15-18, drawn to antibodies and a method of using them.

Group III, claim(s) 19-21, drawn to transgenic animals.

The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: These are structurally and functionally distinct compositions, not capable of use together or interchangeably. The compositions of one group cannot be used in the methods of another. Thus there is no special technical feature that links them.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Janet L. Andres whose telephone number is 571-272-0867. The examiner can normally be reached on Monday-Thursday and every other Friday, 8:00-5:30.
